

360Cast for BusinessObjects Enterprise XI (R2 and 3.x): a powerful and user-friendly web-based tool for scheduling, your BO reports gaining a lot of time.

Schedule your reports and manage your own scheduling server:

- Start and stop your own incorporated scheduling server.
- Visualise the number of instances scheduled with 360Cast, and the server efficiency.

Save time using destination lists to individualize your scheduling

Destination Lists

XLS Destination Lists

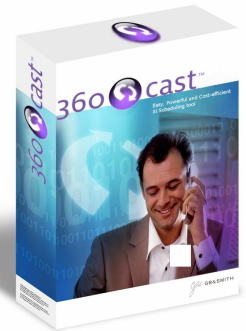

- Marketing
- Production
- Sales
- Staff

SQL Destination Lists

- Marketing Staff

- Manage and use your own destination lists for assisted scheduling.
- Create your lists from Excel files or SQL requests.
- Define a specific format, destination and type for every user.
- Create individualized scheduling even with the detailed scheduling function.

Try our trial version and see how simple it is to deliver your BO XI reports all over your company using 360Cast in your own environment.

Why choose 360Cast?

It allows you to schedule as many reports as you want, to many:
